

The Business Jet Company

Your personal air bridge between

East and West.

Aleksei Kulakovski, CEO

*“To our left,
there is Scan-
dinavia and
Western Europe;
to our right lies
Russia. ”*

Welcome!

Panaviatic is based in the best geographical location - **Estonia**. To our left, there is Scandinavia and Western Europe; to our right lies Russia. Our capital, Tallinn, has been an important trade port between the East and the West for centuries. Today, Estonia is widely recognized as an IT country, with the New York Times calling Tallinn a “Silicon Valley of the Baltic Sea”.

This is the context of our everyday work here at Panaviatic. We are tech-savvy and versatile. In this booklet, me and my wonderful co-workers will show you why we are the number one business jet company on the Baltic Sea.

“In the spring of 2014, we opened a new contemporary Business Aircraft Service Center at Tallinn Airport.”

Managing a private jet takes time, and you need to know everything about planes and international regulations. It’s more than a full-time job. My task at Panaviatic is

to take care of everything, so that owners can enjoy their private jets with no worries. My team and I make sure that the only problem for the private jet owner is coming

up with a destination. We are more than captains and mechanics - we are your partners and consultants in your air travels.

Aleksei Kulakovski
Chief Executive Officer

OF YOUR PRIVATE JET

CHARTER FLIGHTS

LOGISTICS SERVICES

Maintenance

I have spent years working as an engineer in Dubai, where owning a business jet is as important to international entrepreneurs as a fast Internet connection. For the plane's owner, it is business-critical that

their aircraft is ready to fly 24/7, and I can confirm that I do my best to ensure that Panaviatic's clients can be confident that their plane is always in the most capable of hands.

For line and base maintenance of Bombardier Learjet aircraft, the competence and technical equipment of Panaviatic's engineers are the best in the region.

Toomas Männo
Base Maintenance Manager

Toomas Männo and Panaviatic Maintenance Ltd manager Toivo Ingermann

Hangar Rent

Panaviatic features the most modern maintenance complex for business jets, the largest in the Baltic states. The total hangar area is 5,230 square meters. The year-round heated hangar accommodates eight mid-sized business jets and one aircraft the size of a Boeing 737. All of this is available for short or long-term rent. We have everything we need to take excellent care of your jet. Welcome!

Flight operations

"Modern business periodically requires travel on short notice. Our flight planners are at your service to organize everything quickly on your behalf. Route, flight plan, ground handling, hotels and transfers," says Panaviatic's flight operations specialist **Triinu Manilets**. "Our strength

and competitive advantage is our location between Eastern and Western Europe. Our jets' maximum flight range is enough to reach any destination in Europe and the Middle East. We make the extra effort, so you can have a personal customer service experience at Panaviatic."

"We make the extra effort!"

Triinu Manilets, Flight Operations Specialist

Charter flights

For the private jet customer, it is important to have their needs understood and to be confident that everything will go as they want. This is teamwork that involves all

of our employees. My role as Sales Manager is to ensure the quality of the whole process, so the traveler feels truly safe and comfortable as a customer of Panaviatic.

*“You Decide.
We Fly”*

Inga Rjazanova, Sales Manager

Aircraft Management and consulting

People who buy a private jet can afford it not because they're rich, but because they count their money well. We at Panaviatic can make sure that a private jet owner will always be able to enjoy the flight –

and leave everything else to us, at the most optimal price.

Ground handling, documentation, license validation, flying, cleaning, etc. – we have been doing it since

2008, and we have more than 50 well-trained and highly professional employees at your service, fluent in both English and Russian. We offer a full service by the best crew in the region, at a reasonable price.

Ground handling

"The letters FCS stand for Fast, Comfortable, and Safe. This is our credo here at Panaviatic's ground handling division," says ground handling manager **Kristjan Roosipõld**.

"We go to great lengths to offer the highest quality in a full range of handling services to passengers, crew members and operators from all around the world. The quality of our Executive Handling service is

highlighted by the fact that Panaviatic has been selected as a preferred vendor for Universal Weather & Aviation, as well as the EBAA approved handling agent for Tallinn Airport. Our regularly trained staff is ready to take up any number of challenges in order to make your trip even more pleasant. We are also working with top-class restaurants in Tallinn to fulfill all your special catering desires."

"Panaviatic has been selected as a preferred vendor for Universal Weather & Aviation, as well as the EBAA approved GH agent for Tallinn Airport."

Kristjan Roosipõld, Ground Handling Manager

Our team at work

“We at Panaviatic ensure that the private jet owner can enjoy the flight, and leave everything else to us, at the optimal price”

Our goal is to attain a leading position in the European private and business jet market. This will require a lot of work and investment, but our executive team has a clear vision, and the resources to implement it.

In 2013, we were awarded the IS-BAO Certificate of Quality.

Thank you for considering us!

CEO: "If you own a private jet, are planning to buy one, or are interested in VIP air travel, Panaviatic will help you in the best possible way!"

Write or call us, and you will instantly feel the warmth and professionalism of our staff."
